Founders Desk

Chief Gregg Okehi
CEO

Hello and a warm welcome to Bio Ag Organic Fertilizer! I'm excited to share our story and what we stand for with you.

As the founder, I'm passionate about making a difference in agriculture through the incredible power of probiotics. Our goal is to support farmers, livestock owners, and aquaculture businesses with innovative probiotic products that not only improve productivity but also care for our environment.

We offer a wide range of products, from farm and garden probiotic additives to livestock and fishery solutions, all designed to meet your unique needs. We're dedicated to providing top-quality offerings that enrich soil health, increase crop yields, and promote animal welfare.

What truly drives us is our commitment to sustainable and eco-friendly practices. We're all about reducing chemical usage, nurturing responsible farming, and giving back to our local communities through education and support.

At Bio Ag Organic Fertilizer, we value strong relationships built on trust, honesty, and mutual respect. Our friendly team of experts is always here to help you every step of the way, ensuring your agricultural journey is a successful one.

Join us in our mission to create a greener, more prosperous future for agriculture in Nigeria and beyond. Let's work together to harness the amazing potential of probiotics and make a real difference in our world.

Corporate *Overview*

Bio Ag Organic Fertilizer is a Nigerian pioneering probiotics brand dedicated to harnessing the power of nature to create organic fertilizers that promote sustainable agriculture and livestock farming.

Our innovative solutions enhance soil health, boost plant growth, and improve livestock digestive health, all while minimizing environmental impact and fostering a greener future for Nigeria and beyond.

Our probiotic-based organic fertilizers and livestock supplements unlock the full potential of your plants and animals while protecting the environment.

Gone are the days of relying on harmful synthetic chemicals to nourish your plants. **BioAg Organic Fertilizers** offer a natural, safe, and effective alternative that harnesses the power of probiotics to promote plant growth and soil vitality.

Our fertilizers are crafted from a rich blend of natural ingredients, such as compost, manure, and plant-based materials, ensuring your plants receive the optimal balance of nutrients for superior growth and yield.

Our Vision

To be the leading provider of eco-friendly probiotic solutions in Nigeria, empowering farmers, gardeners, and homeowners to embrace sustainable practices that nurture the earth and yield superior results.

Our Mission

Our mission is to revolutionize agriculture and livestock farming in Nigeria by offering top-quality, natural, and effective probiotic products that improve soil fertility, optimize plant growth, and enhance animal health.

1. **Environmentally Friendly Products**

Our probiotic products are designed to minimize the use of chemical fertilizers, pesticides, and antibiotics, reducing their negative impact on the environment. By promoting natural processes and enhancing ecosystem resilience, we contribute to a greener and healthier planet.

2. **Climate-Smart Agriculture**

We support climate-smart agriculture practices that help farmers adapt to and mitigate the effects of climate change. Our probiotic solutions improve soil health, increase water retention, and enhance crop resilience, contributing to more sustainable and climate-resilient agricultural systems.

3. **Ethical Sourcing and Production**

We prioritize environmentally responsible production methods and fair labour practices, we ensure that our products not only benefit our customers but also contribute to a more equitable and sustainable world.

4. **Community Engagement**

We believe in the power of collaboration and knowledge sharing. Through workshops, training programs, and partnerships with local organizations, we empower farmers with the skills and knowledge needed to adopt sustainable agricultural practices and improve their livelihoods.

5. **Continuous Improvement**

We are constantly seeking ways to improve our products and processes to minimize our environmental footprint and maximize our positive impact. By investing in research and development, we strive to stay at the forefront of sustainable agriculture and probiotic technology.

6. **Biodiversity Conservation**

We recognize the importance of preserving biodiversity for the health of our planet and the resilience of agricultural systems. Our solutions support natural ecosystems and contribute to the conservation of native plant and animal species.
